CAREER OBJECTIVE

B.Tech Information Technology student with strong interest in AI/ML and Full Stack Development. Skilled in Python, React, and building scalable web applications. Seeking internship opportunities to apply technical skills, gain industry exposure, and contribute to impactful projects.

EDUCATION

Cochin University of Science and Technology

2024-2028

Bachelor of Technology in Information Technology

Kerala, India

CORE SKILLS

Python, React.js, Next.js, HTML, CSS, JavaScript, PHP, REST APIs, PostgreSQL, Git, Pandas, NumPy, Streamlit, Canva

PROJECTS

Trading Bot — Binance Futures Testnet

Developed a Python-based CLI trading bot for Binance Futures Testnet using raw REST API calls for MARKET, LIMIT, and STOP_MARKET orders. Implemented secure API authentication, request signing, structured logging, and modular architecture for scalable automated trading simulation.

Golf Charity Subscription Platform

Built a full-stack subscription platform where users participate in monthly golf lottery draws while allocating part of their subscription fee to registered charities. Integrated authentication, score tracking, Stripe payments, subscriptions, and automated prize distribution.

POLLYTICS — Kerala Election Analytics Portal

Created an interactive election analytics platform for Kerala with constituency-wise results, booth statistics, candidate performance, and vote trend analysis. Developed an AI chatbot using regex and fuzzy matching for instant natural language election queries.

INTERNSHIPS

MATLAB - Summer Intern (MathWorks)

Jun 2025 - Jul 2025

- *Learned practical use of MATLAB software for engineering and data-related tasks.*
- *Supported project development and testing during the internship period.*

Frontend Web Developer - CODTECH IT Solutions

Jun 2025 - Jul 2025

- *Built interactive frontend components using modern web technologies.*
- *Optimized website layout and responsiveness for different devices and browsers.*

CERTIFICATIONS

MATLAB Completion Certificate : MathWorks

Frontend Developer Certificate : CodTech IT Solutions

Full Stack Development Certificate : University of Helsinki
